CLEVELAND SAYS IT.

He Thinks the Bounty Un-American.

NEW YORK, Nov. 14.—A prominent and directly-interested Louisianian, calling upon Mr. Cleveland, solicited his views concerning the bounty system of promoting the sugar industry in this country. Mr. Cleveland did not hesitate to denounce sharply the system as not in accord with the democratic spirit of our form of government, and one to which he is earnestly opposed. He added, however, that sugar was a proper article to be considered in framing a tariff for revenue.

A correspondent having disputed the correctness of the above statement, the City Item of New Orleans says that, "in self-justification, it is authorized to wager, say \$1000, that the proof produced is conclusive. Further the Item is authorized to wager \$2500, more or less, at the option of the taker, that the sugar bounty, as it is now ordered, will be repealed at the first session of the fifty-third Congress, if no action thereon is previously taken."

U. S. NAVAL NOTES.

Rear Admiral Gherardi's fleet, consisting of the Baltimore, San Francisco, Charleston and Yorktown, according to advices received at the Navy Department, left Callao, Peru, on the 10th December for Valparaiso, Chile, on its way around the Horn to New York to participate in the Columbian naval review.

Charges are made against Capt. Nelson of the United States man-of-war Adams that he had an apprentice boy scrubbed with sand and water while the vessel was in the Behring. Capt. Nelson says the boy had dirty habits and needed the lesson. A naval inquiry will follow.

Lieutenant J. H. Hetherington has been ordered to the Mohican on January 6 next. Lieutenant Hetherington, it will be remembered, is the naval officer who shot and killed an Englishman named Robinson at Yokohama, Japan, last winter for destroying his domestic happiness. He was afterwards tried and acquitted by the consular court.

HIS LIFE WORK.

What an Old-time Composer has Done in Hand-lining Type.

"Uncle Alex" Bolster, a compositor on the ADVERTISER of this city, has recently passed the sixtieth mile-post of his life as a printer. Mr. Bolster has spent the greater portion of his life at the case, and this is what he has accomplished. At an average of three columns a day he has "set up" 56,160 columns. This type put in a newspaper of eight columns to the page would fill 7020 pages.

At five minutes per column it would take one year, three months and thirteen days to read this amount of matter.

If measured by the "em" it would aggregate 140,400,000 "ems." At 90 cents per 1000 ems this amount of labor would be worth \$84,240.

This much type would weigh 780,240 pounds. It would contain 421,200,000 letters.

If these letters were laid end to end they would cover a distance of 581½ miles. He could have set the unabridged edition of Webster's Dictionary thirteen times, or the Bible forty-five times.

If placed in one long column it would reach twenty-two miles. If the metal were moulded into bullets it would furnish ammunition to fight the American Civil war, and then have enough type left to set "five copies of 'Poor Richard's Almanac,' three of Talmage's sermons, and 297 patent medicine testimonials.

As we go to press "Uncle Alex" is at his
